Forecast For Wales
Issued by Met Office Exeter
at 1600 on Thursday 23 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Becoming cloudy, with the occasional outbreak of rain.

This Evening and Tonight:
A dry night, with cloud breaking to give some clear spells. Fog patches may develop in the southeast in the early hours. Cloud then begins to thicken from the west again towards the morning, with some accompanying patchy light rain. Minimum temperature 9 deg C (48 deg F).

Friday:
Staying cloudy through Friday with the occasional outbreak of light rain continuing through the day. Breezy in the north, particularly towards the coast. Maximum temperature 20 deg C (68 deg F).

Outlook for Saturday to Monday:
Scattered showers and sunny spells over the weekend, before a band of rain arrives overnight Sunday. Scattered showers and sunny spells continuing on Monday once this clears.
